🖥️ TEST CASE: Dueling Your Bot vs. the Computer Bot

in list <u>To Do</u>

☰ Description   Edit

Test Case Description:
This test will verify that the app lets the user duel Their Bot vs. the Computer Bot.

Steps:
- Go to: <u>http://127.0.0.1:5500/public/index.html</u>
- Click on "Draw"
- Click on "Add to Duo" on the first robot on the list
- Click on "Add to Duo" on the new first robot on the list
- Click on "Duel!"

Test Postconditions:
- A dueling animation should have been displayed when doing the calculations
- A win or loss result should have been shown
- The Duo the user selected should have been displayed
- The Computer Duo should have been displayed
- The count of the Wins and Losses should have been updated based on the given result
